CASCADE CULINARY INSTITUTE EMBROIDERY:

Font Name: Century CP (this is from a Brother Software we use) Times New Roman can be used too it's basically a standard Serif Font.

Font Size: .36" in height. The width depends on how long the name is, but we usually do not go beyond 4.5" Was it starts to go into the front of the coat and when the student reverses the coat their name gets covered. If the name gets too long we will adjust the height.

Thread Color: If the local embroidery shop uses a poly thread from Madeira (which does not fade) then the color they want to use is 1659 (Dark Brown that matches the logo)
